Education

Lakshmi Narain College of Technology Excellence (RGPV) **Expected 2027**
Bachelor of Technology in Computer Science and Engineering (Full-time) *CGPA: 7.36 | Bhopal, MP*

Adarsh Vidya Mandir, Chas (CBSE) **2023**
Senior Secondary / 12th (HSC) (Full-time) *Percentage: 71% | Chas, Jharkhand*

Gaurav Awasiya Uchcha Vidyalaya, Chas (CBSE) **2021**
Secondary / 10th (SSC) (Full-time) *Percentage: 97% | Chas, Jharkhand*

Core Subject Proficiencies

- Data Structures & Algo
- DBMS & SQL
- Operating Systems
- Computer Networks
- Object-Oriented Prog.
- System Design
- Web Engineering
- Software Dev. Lifecycle

Technical Skills

Languages: JavaScript, Python, HTML5, CSS3, SQL
Web Development: React.js, Next.js, Node.js, Express.js, REST APIs, Tailwind CSS, Redux, JWT, TanStack Query
AI / Machine Learning: Generative AI, NLP, Deep Learning, Scikit-learn, Pandas, NumPy, ChromaDB, RAG
Databases & Tools: MongoDB, Redis, Git, GitHub, Postman, Vercel, Render, Netlify, VS Code

Experience

Sheryians Coding School **Jan. 2026 – Apr. 2026**
MERN Full Stack Developer Intern *Bhopal, MP*

- Contributed to the development of a scalable full-stack blog platform using React, Next.js, Node.js, and MongoDB within the MERN stack. Implemented secure REST APIs with JWT authentication, RBAC authorization, and Redis caching for efficient data handling.
- Built and integrated modern frontend modules using TanStack Query and optimized API workflows to improve application performance. Managed version control and collaborative development using Git and GitHub workflows, including feature branching and code reviews.

Techie Help **July 2025 – Aug. 2025**
Web Developer Intern *Jodhpur, Rajasthan*

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, and React, focusing on UI performance.
- Integrated REST APIs and dynamic UI components to deliver interactive user experiences and functionality.

Projects

Research Study Buddy | *Python, Streamlit, Gemini API, ChromaDB, RAG* **Aug. 2026**

- Built an AI-powered document analysis application using RAG architecture to parse, summarize, and answer queries on PDFs.
- Integrated Sentence Transformers (*all-MiniLM-L6-v2*) and ChromaDB to execute vector embeddings and semantic similarity searches.
- Leveraged Gemini API for context-aware QA, structured table generation, and key entity extraction from research papers.

Stream - Spotify Alike PWA | *React, Redux, Node.js, MongoDB, Web Cache* **Nov. 2025**

- Engineered a Progressive Web App (PWA) supporting online API streaming and offline audio playback via browser caching.
- Implemented automated audio metadata parsing and thumbnail extraction routines for custom user audio library management.

Certifications & Extracurricular Activities

Certifications & Hackathons: MERN Full Stack Development | Selected in HCLTech AI Hackathon | Smart India Hackathon (SIH) Participant (2024 & 2025).

Achievements: Secured 3rd Rank in AIMA Student Management Quiz (2023) held at LNCTE, Bhopal | Solved 180+ problems on LeetCode.
